Brief Comment

~~To the FCC: In reference to the FCC rules on the Internet. I would like to request the FCC to repeal Obama's plan to regulate the web. People like me, as opposed to unelected bureaucrats, should buy the products we want. Obama's plan to regulate the web is a perversion of net neutrality. It broke a light-touch system that functioned remarkably well for two decades with both parties' backing.~~

Don't kill net neutrality. We deserve a free and open Internet with strong Title II rules. This will ensure that the flow of data is determined by the interests of Internet users
